

# Conveyor Products

PR POLYMERS (PRP) are a recognised manufacturer for continued design and development held over three decades, which has given us the expertise through innovative technology to produce durable and reliable wear parts.

Our products are designed to outperform OEM parts in severe conditions and wear applications, where they are exposed to maximum abrasion and corrosion resistance.

PRP have the capabilities to not only line new rollers and sheaves, but also refurbish and recycle these used components. We have a fully equipped CNC department that can machine parts to very tight tolerances and specification and can achieve the required surface finish and profile.

Our experienced team will advise and re-engineer the poly components to last longer in any given application, understanding the importance of selecting the correct grade of poly to suit the application.

We have comprehensive experience in lining a whole range of Conveyor rollers, Pulleys, Wheels, Standard rollers, Trommel wheels, Guide Wheels/Trackers, drive rollers Idlers and Feed rollers.

## Advantages

- ✓ Locally Manufactured
- ✓ High-Grade Durability with excellent abrasion resistance
- ✓ Thorough Pre-Prep before casting the product
- ✓ Intelligently formulated properties, which offers a higher resilience
- ✓ Mastered the Art of Pouring process and techniques
- ✓ Controlled curing environment
- ✓ Increase plant equipment lifespan
- ✓ Reduced noise levels
- ✓ Higher chemical bonding strengths
- ✓ No Porosity, or air entrapment
